

Job Opportunity: KNOM Operations Manager

Position supervises the operations, maintenance, programming and, engineering of KNOM AM & FM radio stations. Ensures proper formats are followed for radio programming; announcements, and scheduled programs are aired as scheduled and broadcast staff and volunteers are trained. This position assists the general manager with compliance of FCC broadcast regulations.

Essential Functions:

1. Act as Chief Operator of the broadcast facilities and maintain records of station programming, operations and station licenses, and related records.
2. Coordinates production of all programs for broadcast, serves as technical director for news programs, acquires, records, and manages satellite feeds, and assures proper staffing levels of technicians. Interrupts scheduled programming for airing of breaking news or emergency management as authorized by the News Director and General Manager.
3. Oversee technical repair and maintenance of broadcast facilities and assist contract engineers with broadcast audio chain repairs as may be required for the continued operations of station's control rooms, transmitters or antennas
4. Provide technical training in radio operations. This includes staff, students, and volunteers in skills such as control room operation, broadcast techniques, equipment use and audio editing,
5. Provide administrative support functions, such as computer operations and maintenance logs.
6. Supervise broadcast operations and assist with volunteer DJ support when necessary.
7. Survey equipment needs, research projects, and write bid specifications for anticipated purchases
8. Remain informed of technological developments in broadcast and operations.
9. Monitors and evaluates program effectiveness and recommends changes required for improvement.
10. Works with team to pursue the KNOM mission and conducts him/herself in accordance with the values of KNOM.

Required Knowledge, Skills and Abilities:

1. Familiar with Federal Communications Commission Rules and Regulations applicable to nonprofit radio stations commonly known as Non-Commercial Educational (NCE) radio facilities.
2. Knowledge of broadcast hardware & software needed to work with the engineers and the ability to provide for the regular maintenance and repair of equipment.
3. Knowledge of Nautel transmitters is preferred but not required. Technical knowledge of EAS systems is also preferred.
